

Shaping the Future of Aerospace

Niagara Frontier Section AIAA

November 16, 2019

Join AIAA as we tour the National Soaring Museum

When: Lunch 12:00, Program 1:00
Saturday, November 16th

Cost: \$15 members and guests
\$10 students

The maiden flight of the first Schweizer glider (SGP 11) took place June 19th, 1930 when Ernie, Paul, and Bill Schweizer were 18, 17, and 12 years old, respectively. Please join us this month when Ernie's son and retired Schweizer Aircraft Chief Engineer Les Schweizer tells us the history of this storied American aircraft manufacturer.

After lunch and the talk spend the afternoon seeing the incredible collection of the National Soaring Museum. Weather permitting, twenty minute introductory sailplane rides will be available in a high performance Schleicher ASK-21 for \$90 (regularly \$105).

The cost of admission covers both a Wegman's sub lunch and admission to the museum. Please RSVP by Tuesday, November 12th to the appropriate contact below and indicate if you plan on a sailplane ride. Payment will be at the door. Please honor your reservation.
